

**GT FENCING LTD**

## **WASTE DISPOSAL POLICY STATEMENT**

G T Fencing Ltd aims to minimise waste production whilst maximising the companies recycling and achieve more sustainable waste management practices.

This will be achieved by:

- Reducing waste production and divert waste away from landfill by promoting recycling.
- Ensuring a sustainable procurement process that considers waste generation and aims to reduce it as far as is practicable.
- Ensuring packaging is kept to a minimum on all materials supplied.
- Managing our own waste effectively and seeking to reuse and recycle as much waste as practicable.
- Encouraging customers to allow spreading of excavated spoil from post hole to be used to fill voids beneath fences, or to be spread in landscaped areas.
- Encouraging customers to allow green waste to be left in landscaped areas to rot down whilst providing a suitable environment wildlife habitat.
- Separation and sorting of all waste materials and arising's from site prior to recycling or disposal.
- Working towards a paperless office system.
- Recycling batteries and waste toner cartridges from company equipment.
- Monitoring the total amount of waste generated, and striving to reduce the percentage of land fill versus the percentage of recycling.
- Reuse all off-cuts onsite, bringing unused offcuts and spare materials off site to be recycled where practicable.

G T Fencing currently recycles 100% of all concrete and hardcore waste, 100% of all metal waste and approximately 90% of all timber waste.

Below are charts detailing the annual percentage of waste sent to landfill.

### Waste Disposal 2007 - 8
